REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The cited art of record fails to teach a method of forming a magnetic field and confining plasma comprising steps of forming a rotating beam plasma, forming a first magnetic field, and forming a second magnetic field about the rotating beam plasma having external field lines outside the rotating plasma extending in a same direction as the field lines of the first magnetic field and internal field lines extending in an opposite direction to the field lines of the first magnetic field, increasing the rotating beam plasma's rotational velocity, and increasing the magnetic field's magnitude beyond the magnitude of the first magnetic field and reversing the direction of the internal field and forming a combined magnetic field of field reverse topology (FRC) as defined in claims 1 and 44, or forming a field reverse configuration magnetic field with a reactor chamber about a rotating beam plasma comprising electrons and ions as defined in claims 11 and 22. Therefore, claims 1, 3-20 and 22-44 are presently allowed.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
